ML Model CI Pipeline - GitHub Actions

Repository URL: NourhanDeifSayed/mlops-assignment-4

Bugs Fixed

1. **YAML Syntax Error on Line 1**

- Issue: Hidden space before `name: ML Model CI`
- Solution: Rewrote line 1 manually with no leading spaces

2. **Missing Checkout Step**

- Issue: Pipeline couldn't access repository files
- Solution: Added `actions/checkout@v4`

3. **Incorrect Trigger Configuration**

- Issue: Pipeline only ran on the `main` branch
- Solution: Changed to `branches-ignore: main`

4. **Empty Linter Step**

- Issue: `- name: Linter Check` with no `run:` command
- Solution: Removed step temporarily (can be added later with flake8)

5. **Missing requirements.txt**

- Issue: File not found during dependency installation
- Solution: Created `requirements.txt` with `torch` and `flake8`

6. **Incorrect Indentation in 'with'**

- Issue: `python-version` not properly indented under `with:`
- Solution: Fixed indentation (2 spaces under `with:`)

7. **Missing Artifact Upload**

- Issue: No step to upload files as required
- Solution: Added `actions/upload-artifact@v4`
